 Your framework was a bit ineffective for this round, try and steer it back to/find a way to capitalize on it maybe?

- Got bit headed here
 You could have mentioned the discourse aspect of your argument more.

This debate was definitely not a framework debate at least not with Aff. In regards to impact, Neg was able to encompass more types of people through enacting change. Trigger warnings also had no link to the Aff, but while trigger warnings may not cause revolutions, they do open up discourse which helps Neg's solvency.
