FLIP: BASIS Mesa AC Amrita Chakladar v. CatFoot DM Danielle Muller

Novice Lincoln-Douglas		Richard Bui (*39)	
Octo-Finals	Flight 2	E206A	Sat 03/04/17 10:30AM
Affirmative <u>Amrita Chakladar</u> Points (20-30) 28 1:30		Negative <u>Danielle Muller</u> Points (20-30) 27 1:45	
The winner of this debate was Affirmative Negative (Circle Winner) Is this a low point win? <u>No</u>		 Judge's Signature <u>Desert Vista</u> School / Affiliation / Occupation	

Comments & Reason for Decision:

Aff

- Your only real solvency/feasibility is C2C. Make sure to prove why AFF world incr. security
- just CX C2 sub C bc if Neg wins argu, you have offense on Neg case
- get more blocks on libertarianism
- Explicitly say 'turn' so it's easily visible on flow

Neg

- INC very repetitive
- just CX your case. add more blocks.
- add more explicit impacts, "will have positive consequence, negative consequence"
- empirical evid. that ppl donate themselves
- libertarian is risky bc empirical evid. in US & know how to impact other countries into vs
- just extend cards. Explain implicat. Be predictive in INR & address potential Neg KVI

Frame: Neg's libertarian

Contention: Aff's C2 A-C

RFD: I vote aff bc aff proves solvency in get det → decrease in tax which links & impact best 2 Neg's framework.
