Comments & Reason for Decision:

ARR

Key

- I really appreciate your humor this round thank you
- The IAR probably does enough but it spent a super long time on the counterplan, you barely extended offense

- This CP is just deadass not competitive, the net benefits are also marginal at best
- You also really need to make unique ~~insert~~ responses to the aff other than the counterplan
- Your key response to Bunny just wasn't actually responsive, you literally said they gave money to poor ppl, the definition of welfare

RRD: I affirm on the perm and the utopia card. Neg just is n't competitive.
