Comments & Reason for Decision:

Ultimately Con is, I think, garnering more offense in the round. I'm not convinced that the pro side has sufficient offense because they're not doing enough to extend their ^{fundamental} arguments throughout the round. I'm not convinced, ultimately that the impact of automation weighs more heavily than a potential loss of Medicaid/healthcare services. Plus VAT increases, inflationary pressure, etc. means that UBI may be too costly (in terms of this round.)

 Businesses will increase prices by the Pro team
